

AOI Discover Creation Family Camp At Twin Peaks Bible Camp July 30 – August 4, 2023

Alpha Omega Institute is excited to offer a unique opportunity to join us for a special Creation/Genesis themed family camp located on the beautiful Grand Mesa, near Grand Junction, Colorado. This will include **creation teaching as well as tours** to an elaborate dinosaur museum and the Colorado National Monument (amazing red rock canyon lands!)

For the **middle-school level through adults**, there will be in-depth verse by verse teaching by **Rich Stepanek** on Genesis chapter one. Come and learn about the science that is incorporated with the Biblical truths of these verses. We will study God's creative work on each day of creation and discover why evolution will not work through natural processes. If Charles Darwin would have understood the scientific information in Genesis chapter one, he probably would not have made the evolutionary mistake that he did. Everything he observed on the Galápagos Islands was predicted in Scripture. The teaching will be at a level that everyone can understand, but also challenging and thought provoking.

There will also be an engaging **children's program** with Lanny and Marilyn Johnson equipping all to understand the truth of creation and the problems with evolution. The children's sessions are educational, but fun-filled with crafts and various hands-on activities.

Each evening is capped off with an evening program suited for the entire family together!

A **nursery** will be provided for the little ones four years old and younger.
